A red arrow points to the 'MOTD' item under the 'Messaging' sub-category in the Favorites list.

Once you have things listed in your favorites bar you can delete them by using the FAV transaction.

The screenshot shows the UCJIS Favorites menu. The top navigation bar includes the UCJIS logo, a search field for 'TRANSACTION CODE', a 'New Broadcast Message' button, and a 'Close All' button. A notification banner indicates '(1) You have a YQ mes...'. The Favorites menu is expanded, showing a tree structure of categories: Person, Vehicle, Article, Gun, Messaging, LOCAL, Alerts, Broadcast Messages (with sub-items 'BC - Send Broadcast Message' and 'BMSG - View Broadcast Messages'), Logs, MOTD, NLETS, Other, and Configuration.

This screenshot is identical to the previous one but includes a callout box labeled 'Add to Favorites' pointing to the 'BMSG - View Broadcast Messages' item in the Favorites menu.

Common TAC Transactions

ADD – To add a new User to the agency

MUSR – To modify User information

CERT – Update User and Non-User training dates

RSPW – Reset a User's password

RU – Remove a User's access to UCJIS (before asking BCI to delete them). This transaction will not work if the account is already disabled (doesn't need to happen for non-access users or non-users)

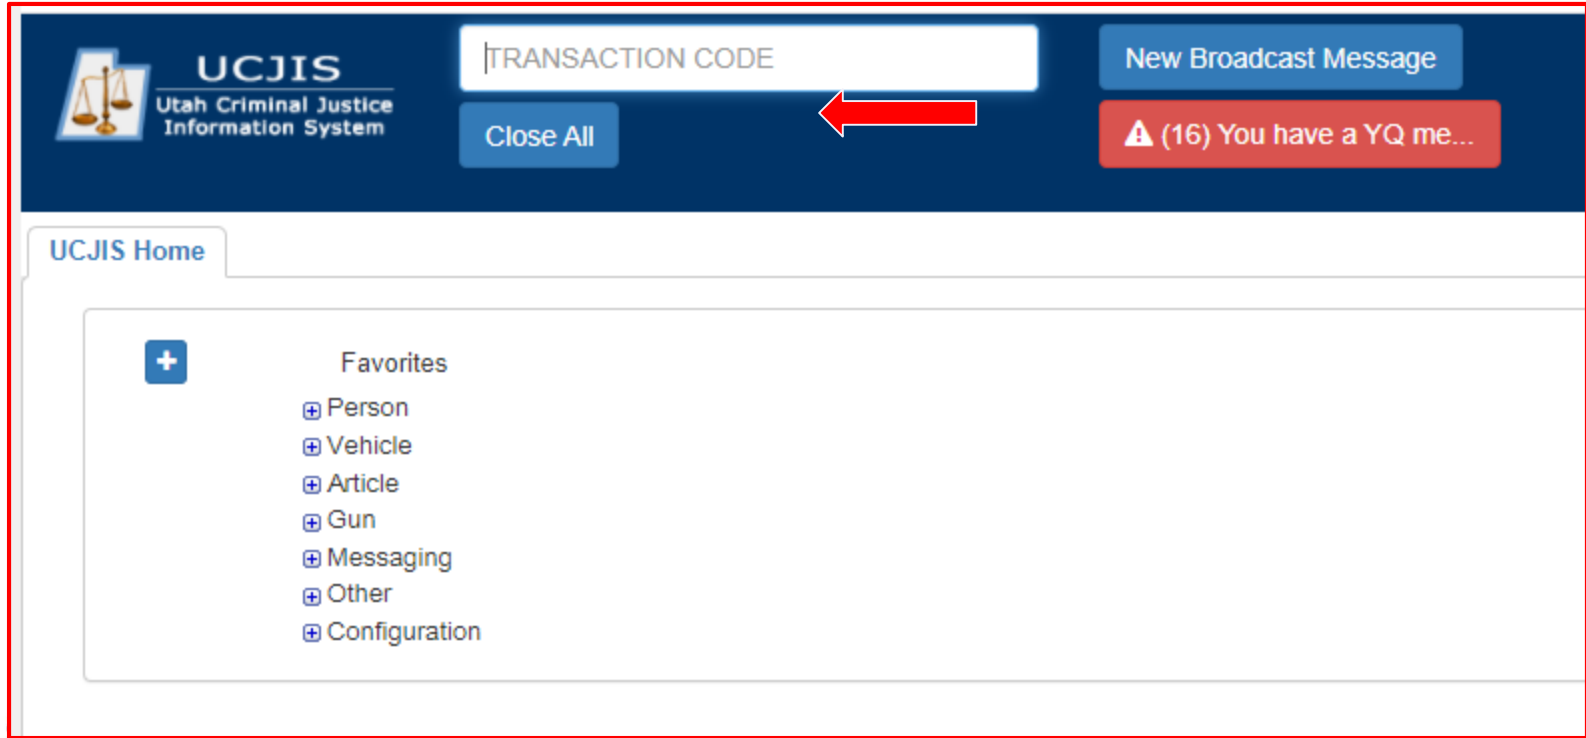

REPT - Look at training dates, are backgrounds completed, have fingerprints been received, etc.

ACNT – Transaction counts by agency

TCNT - To view User transaction counts

Running Transactions

The screenshot displays the UCJIS (Utah Criminal Justice Information System) interface. At the top left is the UCJIS logo. In the center, there is a text input field labeled "TRANSACTION CODE" with a red arrow pointing to it. To the right of the input field are two buttons: "New Broadcast Message" and a red notification banner that says "(16) You have a YQ me...". Below the input field is a "Close All" button. The main content area is titled "UCJIS Home" and contains a "Favorites" section with a plus icon and a list of categories: Person, Vehicle, Article, Gun, Messaging, Other, and Configuration.

UCJIS will automatically fill a letter in for some transaction codes
(ex: REPT ---> REPTL)

Preferences (PREF)

When running the PREF transaction you can change things such as:

Day/Night Mode

DOB Exact or
Range Data

Pop Up Alerts

Etc...

The background is an abstract composition of colors and textures. It features large, soft-edged areas of light purple and pale blue. Overlaid on these are numerous small, dark blue or black dots, some of which are arranged in a vertical column on the left side. There are also several thin, wavy, golden-yellow lines that sweep across the lower half of the image. The overall effect is that of a dynamic, artistic splash or a digital particle simulation.

UCJIS Scenarios

Scenario 1:

Your agency finds a 12 year old child in the middle of the day. You want to find out if there is a missing person entry through NCIC for the child. The child is hesitant to give you any information (stranger danger), so you obviously don't have any big identifiers ex: date of birth, social, name, etc. How do you find out if they are listed on NCIC as missing person?

Answer:

In this scenario you would want to use the QM transaction (Query Missing).

Some identifiers you'll need to know in order to search the missing child on NCIC are:

- The age in the inquiry plus or minus 1 year will be searched
 - Remember that age must be between 00-99
- Approximate height in the inquiry plus or minus 3 inches will be searched
 - Remember that height must be between 400-711(if the child is below 4 feet put 400 since it is the minimum allowed value)
- Approximate weight in the inquiry plus or minus 10 pounds will be searched
 - Remember that weight must be a 3 digit character

Response to your QM Inquiry

NCIC will sort through your query and then it will use the score it in order to select (up to) 20 most likely records for the agency response. Than in order to confirm the hit (identification of missing person) the inquiring agency must review all of the information on the NCIC entry and contact the entering agency to confirm a hit.

You will check these
NIC Numbers for
possible matches to
your missing individual.

What do you do if a hit isn't found?

- If your agency does not get a hit from the subject you are working with they would be entered as an unidentified person. This could be done by contacting BCI through Ofa Vaisima (385-499-1421) or Alex Martinez (385-499-5500).
- Once you contact them they will be listed as an Unidentified Person. Then if another agency enters the child there will be a cross check done with the unidentified file and you should receive a match.
- Once a match has been made both agencies will receive a \$M to notify you of a possible hit

Scenario 2:

You have an out of state agency call you to look up a detainer. What transaction can you use to pull that up?

Answer:

Unfortunately there isn't a specific transaction just for detainers so this is done alongside the wanted person lookup. This transaction is the QW (Query Wanted) transaction.

UCJIS Home Preferences x QW1 x

Query

Wanted Person Query

Canadian information is no longer available via NCIC. Please use transaction code WQM to perform an Niets Canadian persons query.

Originating Agency Identifier

ORI: *

Photo Wanted

None Include Photo

By Personal Information ←

By NIC Number ←

Since there is no separate transaction to query a detainer you will use the QW transaction. At the beginning of the entry UCJIS will let you know if there is a detainer on the individual being run.

Scenario 3:

An Agency in California has located a wanted person listed by your agency. A \$L from the agency in California was sent to your agency. A couple of weeks later your supervisor asks you if you put a copy of the \$L in the wanted person file.

Where can you get a copy of the (\$L) without having to contact California or the BCI?

Answer:

You would run the Broadcast Message Logs by using the BMSG transaction.

This transaction runs your entire agencies logs for the past 3 months.

If you need to get your agencies logs from further back you would need to fill out a dissemination log request form and submit it to Gina McNeil at gmcneil@utah.gov

Things you can get from a Dissemination Log Request Form

An offline search can do lots of things such as:

- Go back to the beginning of NCIC and see the records
- Get a list of all entries to any NCIC file (as well as purged entries)
- Search any file type entered in NCIC and all information pertaining to the entry

Things it cannot do:

- See who Cleared the Entry
 - See who Cancelled the Entry
-

Scenario 4:

Court- Your supervisor comes to you and asks you to pack a warrant with as much information as you can. You are wondering what information this individual has that has been listed by other courts. What transaction could you use to find district court information?

Law Enforcement- You are tracking someone down and you need to get as much information about the person as you can. What transaction could you use to pull up as much useful information on the subject listed by the district court?

Answer:

In both scenarios you could run the CRT (Court Case Inquiry) transaction to gather more intel.

Scenario 5:

Your agency is trying to gather information for an NCIC Entry. You are already using the drivers licence photo but it is really old and you want to add a more recent photo. What transaction could you use to find a more recent photo for your NCIC entry?

Answer:

You can search OTRK (Offender tracking inquiry) to find photo results as well as other information that can be used for your entry.

Scenario 7:

You have a tourist getting booked and processed and you don't have much information on him. What transaction could you use to get as much information as you can without running different transactions?

Answer:

In this scenario you can use the Multiple Transaction Inquiry (MI). This will give you a range of information stemming from both instate and out of state information.

Scenario 8:

You pull someone over on a routine traffic stop early in the morning on a Monday and notice that the individual has a warrant. You noticed while walking up to the car that the individual has kids in the car holding backpacks so you assume he is taking them to school. You decide to release the individual and advise them to appear in court. How can you make it so the warrant shows that you stopped them?

Answer:

You should add comments to the outstanding warrant. This can be done using the Statewide Warrant Management System (QSW). You will need to run the warrant search by an identifier listed below:

- Name
- Social Security Number
- Vehicle License Number
- Case Number
- Warrant Number
- Operator License Number

Scenario 9:

You are entering a record for an offender and you forgot what the Violation Code is for the specific arrest. Where can you find a list of the Violation Codes in UCJIS?

Answer:

In this case you can use the SMOT transaction to get a list of available Violation Codes for your county.

Scenario 10:

You have an officer respond to the scene of an accident to where a tanker truck has tipped over and is spilling out unknown liquid. How would you go about finding what liquid is spilling out of the tanker (without tasting it)?

Answer:

You would use the NLETS Hazardous Material Transaction (MQ). You will need to use the trucks UN number to find out what substance it is.

UNN: UN1202
 Chemical Name: DIESEL FUEL
 Chemical Name: FUEL OIL
 Chemical Name: GAS OIL
 Chemical Name: HEATING OIL, LIGHT
 Guide Information:

----- REPORTING HAZARDS -----
 REPORT SPILLS TO THE NATIONAL RESPONSE CENTER: 800-424-8802 HOURS: 24/7
 ----- REPORTING HAZARDS -----

----- CHEMICAL NAMES -----
 UNN 1202 CHEM NAME: DIESEL FUEL
 UNN 1202 CHEM NAME: FUEL OIL
 UNN 1202 CHEM NAME: GAS OIL
 UNN 1202 CHEM NAME: HEATING OIL, LIGHT

----- POTENTIAL HAZARDS -----

FIRE OR EXPLOSION:

HIGHLY FLAMMABLE: WILL BE EASILY IGNITED BY HEAT, SPARKS OR FLAMES.
 VAPORS MAY FORM EXPLOSIVE MIXTURES WITH AIR.
 VAPORS MAY TRAVEL TO SOURCE OF IGNITION AND FLASH BACK.
 MOST VAPORS ARE HEAVIER THAN AIR. THEY WILL SPREAD ALONG GROUND AND COLLECT IN LOW OR CONFINED AREAS (SEWERS, BASEMENTS, TANKS).
 VAPOR EXPLOSION HAZARD INDOORS, OUTDOORS OR IN SEWERS.
 THOSE SUBSTANCES DESIGNATED WITH A (P) MAY POLYMERIZE EXPLOSIVELY WHEN HEATED OR INVOLVED IN A FIRE.
 RUNOFF TO SEWER MAY CREATE FIRE OR EXPLOSION HAZARD.

----- EMERGENCY RESPONSE -----

FIRE:

CAUTION: ALL THESE PRODUCTS HAVE A VERY LOW FLASH POINT: USE OF WATER SPRAY WHEN FIGHTING FIRE MAY BE INEFFICIENT.:

CAUTION: FOR MIXTURES CONTAINING ALCOHOL OR POLAR SOLVENT, ALCOHOL-RESISTANT FOAM MAY BE MORE EFFECTIVE.:

SMALL FIRE:

DRY CHEMICAL, CO₂, WATER SPRAY OR REGULAR FOAM.

LARGE FIRE:

WATER SPRAY, FOG OR REGULAR FOAM.
 DO NOT USE STRAIGHT STREAMS.
 MOVE CONTAINERS FROM FIRE AREA IF YOU CAN DO IT WITHOUT RISK.

FIRE INVOLVING TANKS OR CAR/TRAILER LOADS:

FIGHT FIRE FROM MAXIMUM DISTANCE OR USE UNMANNED HOSE HOLDERS OR MONITOR NOZZLES.
 COOL CONTAINERS WITH FLOODING QUANTITIES OF WATER UNTIL WELL AFTER FIRE IS OUT.
 WITHDRAW IMMEDIATELY IN CASE OF RISING SOUND FROM VENTING SAFETY DEVICES OR DISCOLORATION OF TANK.
 ALWAYS STAY AWAY FROM TANKS ENGULFED IN FIRE.
 FOR MASSIVE FIRE, USE UNMANNED HOSE HOLDERS OR MONITOR NOZZLES; IF THIS IS IMPOSSIBLE, WITHDRAW FROM AREA AND LET FIRE BURN.

SPILL OR LEAK:

ELIMINATE ALL IGNITION SOURCES (NO SMOKING, FLARES, SPARKS OR FLAMES IN IMMEDIATE AREA).
 ALL EQUIPMENT USED WHEN HANDLING THE PRODUCT MUST BE GROUNDED.
 DO NOT TOUCH OR WALK THROUGH SPILLED MATERIAL.
 STOP LEAK IF YOU CAN DO IT WITHOUT RISK.
 PREVENT ENTRY INTO WATERWAYS, SEWERS, BASEMENTS OR CONFINED AREAS.
 A VAPOR-SUPPRESSING FOAM MAY BE USED TO REDUCE VAPORS.
 ABSORB OR COVER WITH DRY EARTH, SAND OR OTHER NON-COMBUSTIBLE MATERIAL AND TRANSFER TO CONTAINERS.
 USE CLEAN, NON-SPARKING TOOLS TO COLLECT ABSORBED MATERIAL.

LARGE SPILL:

DIKE FAR AHEAD OF LIQUID SPILL FOR LATER DISPOSAL.
 WATER SPRAY MAY REDUCE VAPOR, BUT MAY NOT PREVENT IGNITION IN CLOSED SPACES.

RUNOFF TO SEWER MAY CREATE FIRE OR EXPLOSION HAZARD.
 CONTAINERS MAY EXPLODE WHEN HEATED.
 MANY LIQUIDS ARE LIGHTER THAN WATER.
 SUBSTANCE MAY BE TRANSPORTED HOT.

FOR HYBRID VEHICLES, GUIDE 147 (LITHIUM ION BATTERIES) OR GUIDE 138 (SODIUM BATTERIES) SHOULD ALSO BE CONSULTED. :
 IF MOLTEN ALUMINUM IS INVOLVED, REFER TO GUIDE 169.

HEALTH:

INHALATION OR CONTACT WITH MATERIAL MAY IRRITATE OR BURN SKIN AND EYES.
 FIRE MAY PRODUCE IRRITATING, CORROSIVE AND/OR TOXIC GASES.
 VAPORS MAY CAUSE DIZZINESS OR SUFFOCATION.
 RUNOFF FROM FIRE CONTROL OR DILUTION WATER MAY CAUSE POLLUTION.

----- PUBLIC SAFETY -----
 CALL EMERGENCY RESPONSE TELEPHONE NUMBER ON SHIPPING PAPER FIRST. IF SHIPPING PAPER NOT AVAILABLE OR NO ANSWER, REFER TO APPROPRIATE TELEPHONE NUMBER LISTED ON THE INSIDE BACK COVER.

AS AN IMMEDIATE PRECAUTIONARY MEASURE, ISOLATE SPILL OR LEAK AREA FOR AT LEAST 50 METERS (150 FEET) IN ALL DIRECTIONS.
 KEEP UNAUTHORIZED PERSONNEL AWAY.
 STAY UPWIND, UPHILL AND/OR UPSTREAM.
 VENTILATE CLOSED SPACES BEFORE ENTERING.

PROTECTIVE CLOTHING:

WEAR POSITIVE PRESSURE SELF-CONTAINED BREATHING APPARATUS (SCBA).
 STRUCTURAL FIREFIGHTERS' PROTECTIVE CLOTHING WILL ONLY PROVIDE LIMITED PROTECTION.

EVACUATION:

LARGE SPILL:

CONSIDER INITIAL DOWNWIND EVACUATION FOR AT LEAST 300 METERS (1000 FEET).

FIRE:

IF TANK, RAIL CAR OR TANK TRUCK IS INVOLVED IN A FIRE, ISOLATE FOR 800 METERS (1/2 MILE) IN ALL DIRECTIONS; ALSO, CONSIDER INITIAL EVACUATION FOR 800 METERS (1/2 MILE) IN ALL DIRECTIONS.

Response:

IN CANADA, AN EMERGENCY RESPONSE ASSISTANCE PLAN (ERAP) MAY BE REQUIRED FOR THIS PRODUCT. PLEASE CONSULT THE SHIPPING DOCUMENT AND/OR THE CANADA AND UNITED STATES NATIONAL RESPONSE CENTERS REFERENCE DOCUMENT. :

----- FIRST AID -----

ENSURE THAT MEDICAL PERSONNEL ARE AWARE OF THE MATERIAL(S) INVOLVED AND TAKE PRECAUTIONS TO PROTECT THEMSELVES.
 MOVE VICTIM TO FRESH AIR.

CALL 911 OR EMERGENCY MEDICAL SERVICE.

GIVE ARTIFICIAL RESPIRATION IF VICTIM IS NOT BREATHING.

ADMINISTER OXYGEN IF BREATHING IS DIFFICULT.

REMOVE AND ISOLATE CONTAMINATED CLOTHING AND SHOES.

IN CASE OF CONTACT WITH SUBSTANCE, IMMEDIATELY FLUSH SKIN OR EYES WITH RUNNING WATER FOR AT LEAST 20 MINUTES.

WASH SKIN WITH SOAP AND WATER.

IN CASE OF BURNS, IMMEDIATELY COOL AFFECTED SKIN FOR AS LONG AS POSSIBLE WITH COLD WATER. DO NOT REMOVE CLOTHING IF ADHERING TO SKIN.

KEEP VICTIM CALM AND WARM.

Helpful UCJIS TAC Tips

AM Messages

If you or your agency copies and pastes an ORI that has the letter O in it the system turns it into a zero and the ORI will not see the AM Message. You will need to manually type in ORI's that have the letter O in it such as CO, MO, etc.

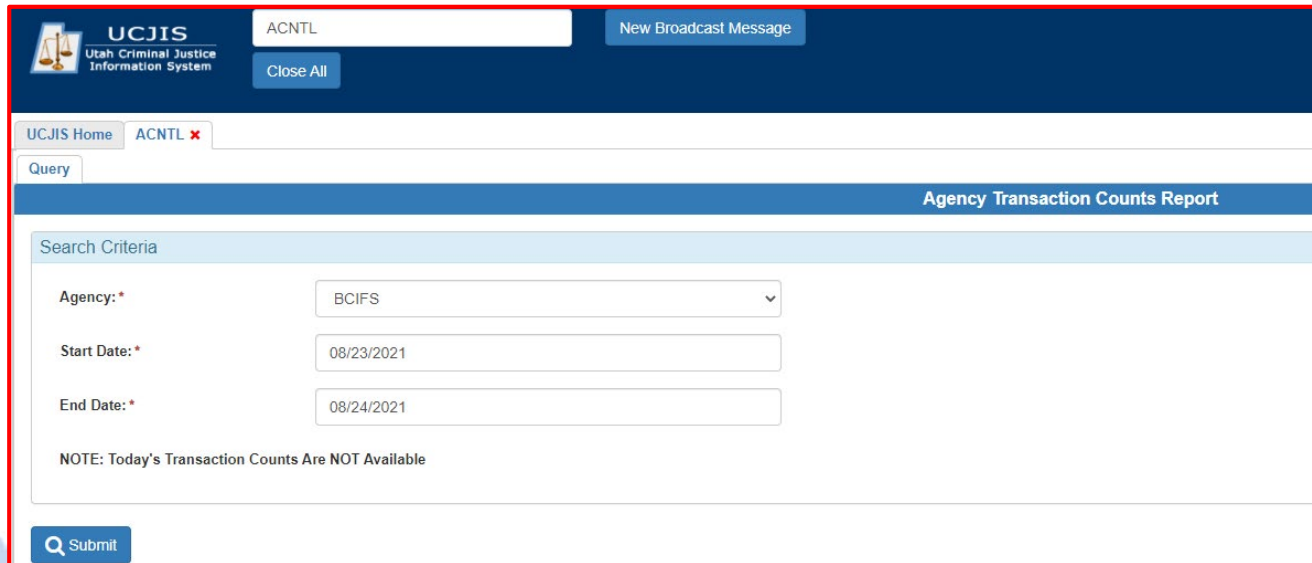

The screenshot displays the UCJIS AM3M interface. At the top, there is a navigation bar with the UCJIS logo, a search bar containing 'AM3M', and buttons for 'New Broadcast Message' and 'Close All'. A notification banner indicates '(15) You have a YQ me...'. The user's name 'JONATHAN GLENN HARR BCIFS (Log Out)' and a '29:37 until timeout' warning are visible in the top right.

The main content area is titled 'NLETS Administrative Message - Abstract Warrant'. It contains several sections:

- ORI:** A dropdown menu for selecting an ORI.
- Destination:** A section for 'Surrounding States' with radio buttons for 'None' (selected), 'North', and 'South'.
- State OR Region:** A section with two dropdown menus for 'State' and 'or Region', both currently set to 'Nothing selected'. Below these is an 'ORI:' text input field with a blue '+' icon to its right. A red arrow points to this input field.
- Message Details:** A section with four input fields: 'Message Number:' (placeholder: ENTER MESSAGE NUMBER), 'Message Date: *' (placeholder: ENTER MESSAGE DATE MMDDYYYY), 'Receiving Agency:' (placeholder: ENTER RECEIVING AGENCY), and 'Last Name: *' (placeholder: ENTER LAST NAME).

ACNT

If you ever need to see what your agency is looking up on UCJIS you can use the ACNT transaction. This transaction can be run for any time frame you want as far back as a year.

The screenshot displays the UCJIS (Utah Criminal Justice Information System) interface for the ACNT (Agency Transaction Counts) transaction. The page features a dark blue header with the UCJIS logo and navigation links. Below the header, there is a search bar containing the text 'ACNTL' and a 'Close All' button. A 'New Broadcast Message' button is also visible in the top right corner. The main content area is titled 'Agency Transaction Counts Report' and includes a 'Query' section. Underneath, the 'Search Criteria' section contains three input fields: 'Agency: *' with a dropdown menu set to 'BCIFS', 'Start Date: *' with the date '08/23/2021', and 'End Date: *' with the date '08/24/2021'. A note at the bottom of the search criteria section states: 'NOTE: Today's Transaction Counts Are NOT Available'. A 'Submit' button is located at the bottom left of the form.

BCIFS	QW	8
BCIFS	XXSN	4

TCNT

If you ever need to see what a user in your agency is looking up on UCJIS you can use the TCNT transaction. This transaction will also give you the numbers as far back as the previous year.

The screenshot displays the UCJIS (Utah Criminal Justice Information System) interface for the TCNT transaction. The top navigation bar includes the UCJIS logo, a search box containing 'TCNT', a 'Close All' button, a 'New Broadcast Message' button, and a notification for '(4) You have a YQ mes...'. Below the navigation bar, there are tabs for 'UCJIS Home' and 'TCNT'. A 'Query' button is visible. The main content area is titled 'Agency Transaction Counts Report' and contains a 'Search Criteria' section with the following fields:

- Start Date: * (08/01/2021)
- End Date: * (08/24/2021)
- NOTE: Today's Transaction Counts Are NOT Available
- User ID: (Redacted)
- Agency: * (BCIFS)

A 'Submit' button is located at the bottom left of the search criteria section.

SIAC Identification Image Result

Photo Lineup or Facial Recognition

Requests are sent to SIAC

They can only facilitate requests that meet the following criteria:

- *investigating a felony, a violent crime, or a threat to human life; or

- *identifying an individual who is:

 - (A) deceased;

 - (B) incapacitated; or

 - (C) at risk and otherwise unable to provide the law enforcement agency with his or her identity.

SIIS Transaction

Submits a request for the photo line up or facial recognition

For a line up you must specify if you need a 1 page or 6 page lineup. Upload the suspect photo including identifiers (if known) and enter the nature of crime and case number. You will receive a notification when the lineup has been processed

The background features abstract, painterly elements. At the top, there are horizontal brushstrokes in shades of purple and blue. On the left side, a cluster of small, bright yellow dots is scattered. In the bottom right corner, there is a group of small black dots. The overall aesthetic is artistic and modern.
