BCI Introduction

State of Utah- Bureau of Criminal Identification

Introduction to the Utah Bureau of Criminal Identification

Overview of access to UCJIS

UCJIS Basics

- History and basics of UCJIS
- User types
- Dissemination
- Misuse
- Using UCJIS
- UCJIS messages

Utah Criminal Justice Information System (UCJIS) Basics

New TAC Welcome Packet

- Packet is specifically for TAC's and alt TAC's
 - Covers TAC responsibilities
 - Covers TAC transactions
 - Creating a user, modifying user information and removing a user from an agency
 - Training and testing
 - Covers audits
 - Covers NCIC validations
 - Contains BCI contact information for agencies

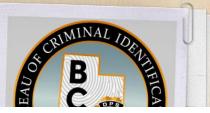

New TAC Packet 2021

Utah Criminal History

- Covers how a criminal history is created
- Overview of a Utah criminal history and its components
- Covers Right of Accesses

Approved by: CJIS Advisory Policy Board

III Manual

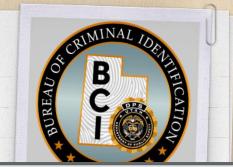

- Requirements to participate in receiving and sending III
- Transactions to receive III
- Covers auditing of the III usage

Nlets Manual

- Nlets security policy
- Nlets transactions
- ORION files/ Nlets Help file information

This section describes NIets HELP file transactions. Inquiries to NIets and responses from the NIets HELP files are available to all NIets users. There are two types of HFI P files:

- HELP files that deal with state or other member HELP records.
- . HELP files that deal with general HELP records maintained by Nlets.

State/Province/Federal Member Agency HELP Files

A HELP file is available for each participating state, Canadian province and Federal member agency via a reserved area on the Niets system. Niets members do not need to allocate space or do extensive program changes on their system to participate in the HELP program.

Requirements

The HELP message must be an Administrative Message (AM) message type with a single destination address that designates the requested HELP record.

Each state/province should validate their HELP files annually to insure their relevance and accuracy.

ORIs for HELP File Message Transactions

A state/province/agency must send an AM message to the proper ORI to use the HELP files. This designates the specific record to retrieve and action to be taken.

HELP File ORI: aabbbcccc where:

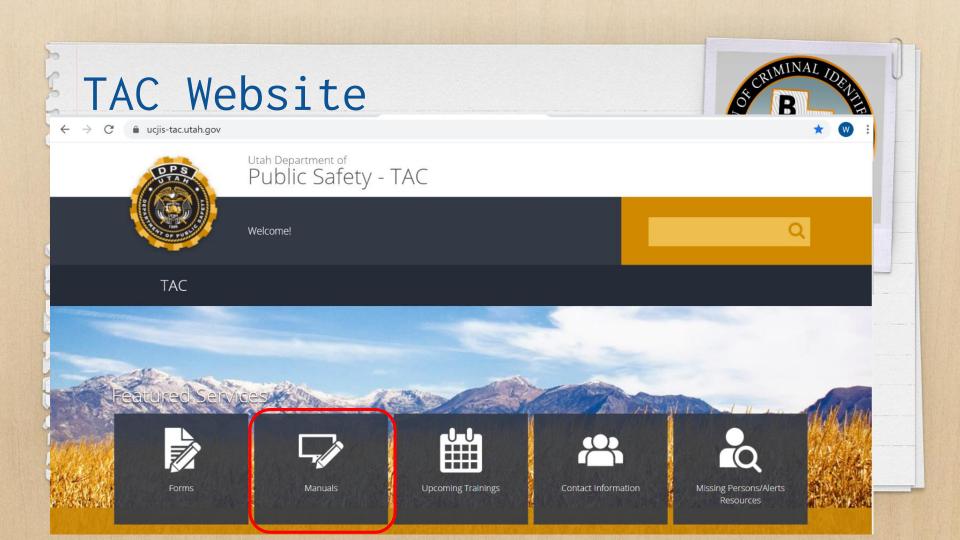

- The first two characters designate the specific state/province file.
- . The 3rd, 4th and 5th characters designate which record is to be accessed
- . The last 4 characters of the ORI designate the action to be taken upon the record.

The table that follows demonstrates how to build a HELP file ORI, New HELP file ORIs may be added with approval from Niets.

ntify Record to be Accessed	Identify an Action to be Taken on the Record

Navigating the manuals

Printing Manuals

- It is encouraged to use the TAC website or the direct website for Nlets and the FBI for the manuals
- Printing manuals can easily lead to inaccurate information as all manuals are updated often
 - Using a bookmarked link or going through the TAC website will allow you to utilize the ctrl+F to find a specific section quickly

What are we required to train on?

What the TAC Trains on:

- 1. Dissemination, Privacy, Security
- 2. Accessed Files in UCJIS
- 3. Misuse of UCJIS information
- 4. BCI Operating Manuals and NCIC Manuals
- 3. "Message of the Day" (UCJIS Home Page)
- 4. Information from BCI Newsletters
- 5. For NCIC entry Users: TOUs (TAC Home Page)
- 6. What was discussed at the annual TAC Conference

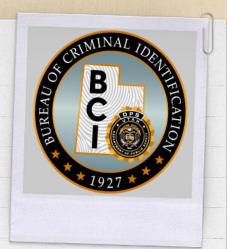

Dissemination, Privacy and Security

- Secondary dissemination log requirements
- Security awareness
- Misuse and possible consequences of misuse
- You will need to cover what can be disseminated, when and to whom

Accessed Files in UCJIS

- What files your agency/users have access too
 - What is the transaction, what comes back

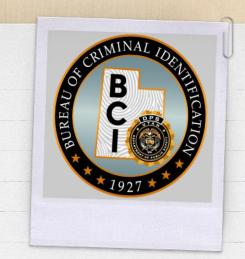

NCIC Manuals

- What is contained in the manuals
- Where they can be located
- What NCIC each manual is for
- How to operate, run, inquiry each NCIC transaction your agency uses

Newsletters

- What changes/ clarifications are covered in the quarterly newsletters?
- Make any training opportunities available announced in the newsletters

During the week of June 15 - June 18, 2021 the FBI CJIS auditing team was here in Utah auditing the State as well as some of our local agencies. The audit presents a great

areas where we need to make improvements in order to be CJIS compliant. This year's TAC Conference will be heavily focused on the aud findings as well as BCI Field Services will be revealing a new auditing process for the upcoming audit cycle. The next couple of newsletters will also include information from the audit.

Questions regarding this may be directed to

Free Training from BCI

The BCI Research Section offers training for courts and law enforcement agencies across the state. Training opportunities include:

Fingerprinting Techniques

Troubleshooting Fingerprint Rejections

- Fingerprints for Citations/Working with
- Utah Criminal History
- All training is free. Contact Erin Paulser at <u>erinoaulsen1@utah.oov</u> or at 385-415-9848

The 2021 TAC Conference will be held on 2021 with an optional New TAC class on the TAC Conference is manufatory for at least one representative from unior anemoviner Litals administrative rule R722-900(6)(a).

Conference will be held virtual again this year Regisitration information will be sent via email around the end of July by your Field Services

TAC Reminder

When setting up a new account, please make

sure to be using the ADD transaction in UCJIS and submit the Security Agreement directly to your Field Services Representative. This will accounts being delayed to become active. We must have the Security Agreement before an

Featured Missing Person

Age: 56 at time missing Height: 5'7" Weight: 154 Hair: Brown

Prederick was listed as a missing person. He left his home in Lehl after a disagreement with his griffrend. His vehicle was located in San Jan County. He has never been seen or heard from

TOU's: Technical Operating Updates

- What TOU's are
- Any pertinent changes to the way a transaction is run

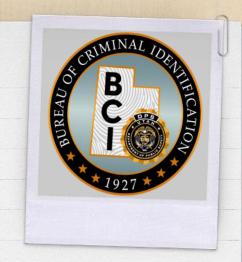

TAC Conference updates/reminders

- Transactions updates, tips, tricks
- CJIS Security changes pertinent to users, workplace

Misuse of CJI

- What constitutes misuse?
- What are the procedures for misuse on the Federal, State and agency level?
- What the consequences of misuse?

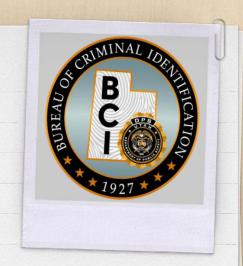

BCI Operating Manuals

- Where the manuals are located
- What manuals are available

Possible ways to train and test:

In groups

Possible ways to train and test:

One on one training

Possible ways to train and test:

Quiz after training

Question 2 / 35

True or False: Agencies must have their own procedures in place with misuse.

True

False

Possible ways to train and test:

Using test records or active case files

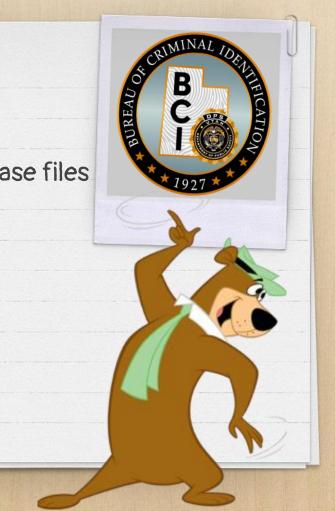

UCJIS TEST RECORDS

Please use the following records for training and testing purposes.

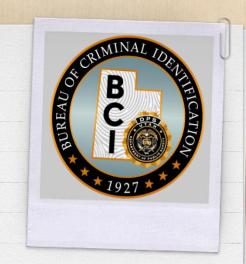

When running test records, please remember that the name list results will contain real/active records among the test records. Be sure to check identifying information (DOB, SID, OLN) to avoid opening an active record. In this example of a UCH name list, the first two names listed are valid test records that you may use for training and testing. However, the next two names are actual criminal history records that should not be inquired upon without a valid criminal history purpose.

NCIC Retention Periods

- What is the NCIC retention period for a vehicle?
- My article got purged due to meeting the retention period what is that?

NCIC OPERATING MANUAL ARTICLE FILE

INTRODUCTION

1.1 GENERAL INFORMATION

1.2 CRITERIA FOR ENTRY

1.3 MESSAGE KEY (MKE) CODES

1.4 RECORD RETENTION PERIOD

Is there a Cliff notes version available of the BCI Manuals?

This presentation can be used as cliff notes, or the table of contents/index of the actual manual can be

Does dissemination also mean if there is a visitor coming through the office? Meaning, if a company comes in to pick up one of our broken chairs to repair it outside of the office, do we need to have a dissemination log saying "bob was in our office for 5 minutes and a dispatcher may have read off a DL while he was in the room" even though he was escorted? You do not have to log a visitor in a secondary dissemination log. Let them know they are entering a secure area, the information being viewed, run and discussed is protected and that they cannot disseminate anything they may hear or come across and then you will escort them throughout their time in the secure area.

So we need to submit a new form every time we train, if it's on one area? You do not need to submit a new Training and Testing agreement every time you cover one topic. You will complete it anytime you do the required training. (Security awareness, misuse, dissemination, etc).
