

ALL THINGS UNIFORM CRIME REPORTING

Utah Department of Public Safety

BACKGROUND OF UCR

Background on UCR: National Program

- The Uniform Crime Reporting (UCR) Program generates reliable statistics for use in law enforcement. It provides information for anyone inquiring about criminal justice, researchers, the media, and the public. The program has been providing crime statistics since 1930.
- The UCR Program includes data from more than 18,000 city, university and college, county, state, tribal, and federal law enforcement agencies. Agencies submit their crime data either through a state UCR program or directly to the FBI's UCR Program.

State Program: Utah Code 53-10-205

- A law enforcement agency shall, for the jurisdiction of the law enforcement agency, submit crime reporting data required for the statewide uniform crime reporting system described in Section 53-10-205:
 - (a) to the bureau before the 16th day of the month after the month in which a reported crime occurs; and
 - (b) in a manner prescribed by the bureau and in compliance with the requirements of the Federal Bureau of Investigation's uniform crime reporting standards

Under the UCR Umbrella

- NIBRS
 - Including group A offenses and group B offenses
- Hate Crime
- LEOKA
- Use of Force
- Human Trafficking
 - Involuntary servitude
 - Commercial Sex Acts

What is NIBRS?

- National Incident Based Reporting System
- A nationwide view of crime based upon statistics
- Implemented to improve the overall quality of crime data collected by law enforcement
- Provides a *common* language for the various criminal statutes
 - Pop, Soda, or Coke?

What is Hate Crime

- What is Hate Crime?

A committed criminal offense motivated, in whole or in part by the offender's bias(es) against a race, religion, disability, sexual orientation, ethnicity, gender, or gender identity

Example –

A transgender woman was waiting at a bus stop when she was approached by a man. The man physically assaulted the victim, breaking her arm, and while calling her a “she-male” and other slurs. The police confirmed that the victim had been simply waiting at the bus stop and the assault was completely unprovoked.

LEOKA

- Law Enforcement Officers Killed and Assaulted
- Provides information about officers who were feloniously or accidentally killed or assaulted while performing their duties
- The information is published and used to help agencies develop policies to improve officer safety
- Please be sure to ask your vendor to see if your LEOKA is being submitted monthly within your NIBRS file

Use of Force

- Use of Force data is collected when force used on a subject by a law enforcement officer results in one of the following:
 - Death
 - Serious Bodily Injury
 - Discharge of a firearm at or in the direction of a person

Use of Force

- Offers big-picture insights, rather than information on specific incidents. The collection does not assess or report whether officers followed their department's policy or acted lawfully.
- With LEOKA, provides a better understanding
- As of May 5th, 2021 all law enforcement agencies are required to submit Use of Force data
 - Submitted through UCJIS

The logo for the Bureau of Criminal Identification (BCI) of the State of Utah. It features a circular emblem with the text "BUREAU OF CRIMINAL IDENTIFICATION" around the top and "1927" at the bottom. In the center is a stylized outline of the state of Utah with the letters "B", "C", and "I" stacked vertically. To the right of the outline is a smaller, detailed badge with "STATE OF UTAH" and "1896" on it. Below the emblem is a black banner with the text "Utah NIBRS" in white.

The screenshot shows the 'Nibrs Upload Home' page. At the top left is the Bureau of Criminal Identification logo. Below it is a navigation menu with 'Applications' selected. Under 'Applications', there are three links: 'Upload Summary', 'NIBRS Upload', and 'Retrieve Posting Results'. The main content area is titled 'Upload NIBRS File.' and contains a 'Choose File' button with the filename 'UT0030100.201709' and a 'Submit File' button. A note at the bottom says 'Remember to retrieve your posting results at a later time.'

The screenshot shows the 'Nibrs Upload Home' page after a successful submission. The 'NIBRS Upload' link in the 'Applications' menu is highlighted. The 'Choose File' button now displays the filename 'UT0030100.201709'. Below it is a 'Submit File' button. A message at the bottom of the main content area reads: 'Result: 200 - tapedate: 201709 successfully submitted. Remember to retrieve your posting results at a later time.'

The screenshot displays the 'NIBRS Upload Home' web interface. At the top left is the Bureau of Criminal Identification logo, featuring a map of Utah and the year 1927. The main content area is titled 'Retrieve Posting Results' and includes the following fields and controls:

- ORI:** A text input field containing 'UTBCI0000'.
- Year:** A dropdown menu set to '2022'.
- Month:** A dropdown menu set to 'July'.
- Result Type:** A dropdown menu with 'Stats' selected, and a sub-menu showing options for 'Stats', 'Success', and 'Error'.
- Buttons:** 'View' and 'Download' buttons are positioned to the right of the Year and Month dropdowns, respectively.

On the left side, there is a sidebar menu under the heading 'Applications' with three items: 'Upload Summary', 'NIBRS Upload', and 'Retrieve Posting Results' (which is highlighted).

USE OF FORCE REPORTING

Use of Force

- What is it?
 - A collection of data that provides nationwide statistics on law enforcements incidents involving use of force
- What information does it collect?
 - Data collection includes: circumstances, subject information, officer involved information
- Is it mandatory?
 - YES! Reporting must be done by the 16th of each month in UCJIS

Requirements

1. When a **fatality** occurs connected to use of force by a law enforcement officer.
2. When there is **serious bodily injury** to a person connected to use force by a law enforcement officer.
3. When a **firearm is discharged** by law enforcement at or in the direction of a person that did not otherwise result in death or serious bodily injury.

Use of Force Report

Incident Requirements

Do NOT report a Use of Force Incident unless at least one of the following conditions applies.

- When a fatality occurs connected to use of force by a law enforcement officer.
- When there is serious bodily injury to a person connected to use of force by a law enforcement officer.
- When a firearm is discharged by law enforcement at or in a direction of a person that did not otherwise result in death or serious bodily injury.

The definition of serious bodily injury will be based, in part, upon Title 18 United States Code (U.S.C), Section 2246 (4): The term serious bodily injury means bodily injury that involves a substantial risk of death, unconsciousness, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ, or mental faculty. Serious bodily injury would include all gunshot wounds (regardless of whether they are penetrating or grazing), apparent broken bones, possible internal injury, severe laceration, stitches, sutures, chipped teeth, loss of teeth, canine bites requiring medical attention, unconsciousness due to an applied carotid artery hold, and injuries severe enough to require medical intervention and/or hospitalization. The term “medical intervention” does not include routine evaluation of the subject to determine fitness for arrest or detention by an emergency medical technician or medical staff at a medical facility.

Please select one or more of the following before proceeding (you will need to provide at least one subject for every different Force Result selected):
