

UCJIS Test Records

Please use the following records for training and testing purposes

When running test records, please remember that the name list results will contain real/active records among the test records. Be sure to check identifying information (DOB, SID, OLN) to avoid opening an active record. In this example of a UCH name list, the first two names listed are valid test records that you may use for training and testing. However, the next two names are actual criminal history records that should not be inquired upon without a valid criminal history purpose.
